Continuation of Substance of Interview including description of the general nature of what was discussed: Discussed a need to change "role" to --roll-- in claim 21 at lines 13 and 14 and in claim 29 at line 16 to correct the language of the claim. Noted that while vacuum impregnation was known per se in the art, it was not performed in the process of producing a covered roll as claimed and thus the claimed invention defined over the prior art of record..
